BEST OF DRINKWARE

RETUMBLER® - Sustainable drinking bottles and mugs have become part of our everyday lives: we enjoy our morning coffee in a thermo mug while we are on the way to work. During activities like sports a stylish drinking bottle is always at hand when we sweat. If we feel like having a delicious tea on the road, then a classy glass bottle ensures a perfect experience.

We, the users, encounter these items on a daily basis and thus have a constant exposure to your brand message.

SMART ELECTRONICS

REEVES® - The whole world of electronic promotional items, united in one brand. Products from the technology and electronics range are first-class giveaways with practical benefits and a long application period, not only among tech-savvy target groups.

The selection is wide: electronic products that are fun and relaxing in everyday life include speakers or smartphone accessories. Small helpers that fit perfectly into our everyday working lives include wireless chargers for smartphones or compact charging cables with multiple connections for different devices.

COOL WATCH CONCEPTS

RETIME® takes the time to bring you something special. Our watch brand is one of the most powerful ones in the field of promotional wristwatches for men and women - and it is a stylish stage for the presentation of corporate designs of companies and brands.

Watches are extremely versatile, generally rather „handy“ and available in such a variety of designs that there is a suitable model for every type and style. Most people own at least one of them. Some people can't get enough of these useful and wonderful timepieces and at last become passionate and veritable collectors.

CLASSICS & IDEAS

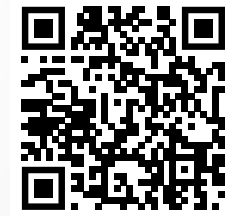

RE 98® - Classics & Ideas orchestrates an assortment of beautiful and useful products made of high-class materials, especially for successful, perfectly coordinated advertising campaigns and events. Our target: to achieve high returns and recognition effects with your customers and to be remembered in the long term. Under the umbrella of the RE 98® brand, you will therefore find promotional items that combine a long life cycle with timeless design and high quality.

We present you an excerpt from our range.

Customisation example with pad printing an UV Print

The transparent outer layer communicates lightness; the "floating" inner cup robustness.

The large printable lid made from PP plastic is smoothly adjustable and can be opened wide.

Our favourite mug myVivero is a real talent. The entire cup fits under even the small coffee machines.

MyVivero has been developed with a tapered design. Its clever shape allows a secure grip at all times.

Choose a CASAN drinking bottle or the PETROLINA drinking bottle. Both are available in different colours and filling quantities (from 350ml). From 3,000 pieces, the bottle colour and the colour of the soft grip on the cap can be adjusted.

Choose buckle and customisation:

The buckle made of high-quality aluminium is available in matt silver and black lacquer. An elegant laser engraving on the buckle completes your myCasan, myPetroolina or myLille in detail.

Choose the strap material and customisation

The polyester strap is available from 100 pieces and customised with your design using heat transfer. Alternative straps and customisation are available from 3,000 pieces on request.

Choose drinking bottle with customisation:

Place your advertising message expressly on the bottle body. As usual, it can be easily printed with your motif/logo.

RE-LAUNCH LOLLICLOCK ROCK

Our beautiful desk clock, the Lolliclock Rock, formal winner of the Promotional Gift Award in 2013, deserved a design and technical update. The shape of the clock has been unchanged, but the bezel now has a straightforward and contemporary design, and the dial has a new look with sleek hands.

In times where sustainability is a top priority, we have turned our table clock into a fully sustainable time-piece - a solar clock made of a high-quality alloy, innovative hidden solar cells, allows a lifetime without changing batteries and the use of plastic as a case material has been discarded.

As another member from the re-launch of the "Rock" family, we introduce the first thermometer within the RETIME brand. In the same design language, makes them a collection. As an addition to the thermometer and solar clock, we will also introduce a budget friendly 3-hands clock to the collection.

Both watches can be fully customized from 25 pieces upwards! For more information, we look forward to your call.

OUR NEW DESIGN PROCESS

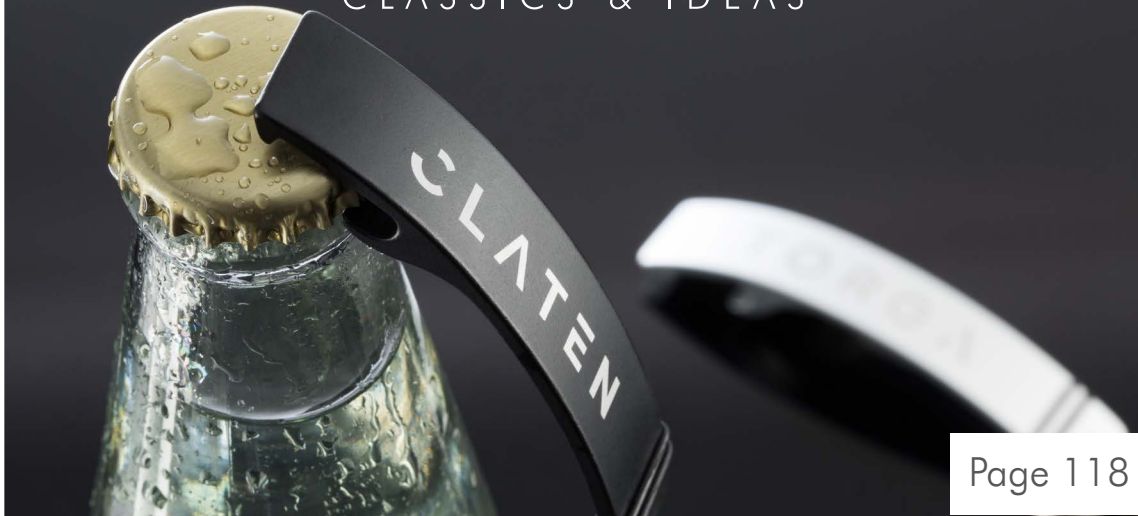

We all know that watches are emotional products. We would like to put the 'wow' factor into the design process, so our customers can 'feel' their watches even before the first watch produced. To achieve this, we moved our design process to detailed 3D modeling, providing our customers high quality, lifelike renderings and stunning 360 degrees animations. 3D renderings available for all our standard models from 25 pcs and individualized watches from 100 pcs.

1. General idea
2. 3D wireframe modeling
3. High quality rendering
4. Final product
